## Experience Copenhagen Business School

### Where University Means Business

Established in 1917, CBS has grown to become the 2<sup>nd</sup> largest business school in Europe. The many years of experience within research, degree programmes and networks place us as an active and innovative actor on the global market.

### Diversity Creating Knowledge

The business side of innovation is central. Diversity, risk acceptance and the desire to experiment are crucial to CBS. The principles behind all our development initiatives are to be daring and innovative in a changing society and to educate graduates who will ensure value creation for the global society.

CBS offers the most comprehensive range of university degrees in business economics and modern languages for international business communication in Europe.

Copenhagen Business School strives to:

- Be an internationally recognised and leading European business university
- Offer world-class research environments and programmes
- Focus strengths on team work and group problem solving.

CBS educates dynamic thinkers who are internationally competitive by virtue of their research-based knowledge, innovation abilities, cultural understanding and personal leverage.

## CBS International

CBS strongly focuses on the students' possibility of taking part of their education at a partner university abroad. At the same time, our international students are an important aspect of our campus life and addition to the internationalisation of CBS' own academic environment.

CBS is the Danish member of CEMS - The Global Alliance in Management Education - and a member of Partnership in International Management (PIM), and furthermore focuses on double degree agreements with other top business schools. We have exchange and co-operation agreements with approximately 330 universities and business schools around the world, half of which are European. Thirty-eight percent of CBS programmes are taught in English and we offer approximately 200 separate courses taught in English.

### Totals

Programmes taught in English:	27
International conferences and workshops:	130

# Bachelor Programmes

## Bachelor Programme Structure

The curriculum for each of our bachelor programmes varies, however, students will generally spend the first and second year focusing on a core of foundational courses for each specialisation. Students will follow a coherent, progressive sequence of courses in each programme, and the number of courses, methods of teaching, type of exams, etc. varies across programmes and concentrations.

In the third year, most programmes allow the opportunity to choose electives. You can choose from the many courses offered by CBS or take related courses at other Danish or international universities. If you decide to participate in an exchange programme with one of CBS' approximately 330 partner universities, you can choose to do so in the third year.

During the third year of study, all programmes include a required bachelor project, which must be written within your overall area of specialisation. Here students must demonstrate their ability to independently write, analyse and assess a complex academic issue at a high professional and academic level.

Brief programme and concentration descriptions are presented on the following pages. If you find one or more of these especially interesting, you can find more detailed descriptions by going to the web address listed under each programme.

Read more: [www.cbs.dk/undergraduate](http://www.cbs.dk/undergraduate)

## Bachelor Programmes Taught in English

### **BSc in International Business:**

[www.cbs.dk/ib](http://www.cbs.dk/ib)

- Strongly focused on the international business environment
- Comprehensive introduction to the key areas of business administration
- Work in multicultural project groups

### **BSc in Business Administration and Service Management:**

[www.cbs.dk/sem](http://www.cbs.dk/sem)

- Combines focus on the service industry with general business skills
- Understand how to develop business potentials in an expanding sector
- Learn how to manage and market intangible products

### **BSc in Business Administration and Sociology:**

[www.cbs.dk/bsa](http://www.cbs.dk/bsa)

- Understand the cultural dimensions of doing business in Asia

### **BA in Information Management:**

[www.cbs.dk/im](http://www.cbs.dk/im)

- Learn how companies manage external and internal information flows
- Understand how information technologies can create efficient processes and effective communication
- Programme integrates the understanding of information, communication, organisation and technology

## Bachelor Admissions

Admission to the Copenhagen Business School is selective, and each application is reviewed for its individual merits and qualities. Your academic preparation and performance, combined with the strength and quality of your upper secondary education, will be the basis on which your application will be assessed. All of our bachelor programmes require the equivalency to a Danish upper-secondary diploma, plus any additional requirements specified by each individual academic programme. For more specific information about the equivalencies to Danish upper-secondary education, please visit the website of the Danish Agency for International Education: [en.iu.dk/recognition/entry-to-higher-education](http://en.iu.dk/recognition/entry-to-higher-education)

Additionally, in order to ensure a high level of teaching at CBS, all Danish and international applicants are required to document fluency in English according to CBS requirements. The up-to-date requirements can be found here: [www.cbs.dk/bachelorenglish](http://www.cbs.dk/bachelorenglish). Each specific programme may have additional language requirements.

Applications for bachelor programme admission are coordinated through the Danish Ministry of Children and Education.

Dates for application will be published on the following website: [www.optagelse.dk/vejledninger/english/](http://www.optagelse.dk/vejledninger/english/)

This website provides both the application forms (Parts 1 and 2), as well as guidelines to assist you in completing the forms.

Students with a non-EU/EEA educational background may contact the CBS Admissions Office by the specified deadline for a free appraisal (pre-assessment) of your academic background, in order to determine whether you fulfil the entry requirements for your programme of interest.

The most current information regarding admission to CBS can be found on the Admissions Office website:

[www.cbs.dk/undergraduateadmission](http://www.cbs.dk/undergraduateadmission)

*\* Please refer to the application timeline for non-EU/EEA applicants on page 16*

**BSc and BA**  
(Full-time, three-year undergraduate programmes)  
**Fees for Non-EU/EEA Applicants:**  
Application Fee 150 Euro  
(refunded if admitted and attend CBS)  
**Yearly Tuition Fee 9,500 Euro**

*\* CBS scholarships are currently unavailable for bachelor students.*

# Master's Programmes

## Master's Programme Structure

During the first and second semester, you will follow a block of core courses, as well as a methodology course. The first year constitutes a coherent, progressive sequence. The number of courses, methods of teaching, type of exams, etc. varies across programmes and concentrations.

In the third semester, you have the opportunity to choose electives offered by CBS or take related courses at other Danish or international universities. If you decide to participate in an exchange programme with one of CBS' approximately 330 partner universities, you can choose to do so in the third semester.

The fourth semester is reserved for writing your master's thesis, which must be written within your overall area of specialisation. Here students must demonstrate their ability to independently write, analyse and assess a complex academic issue at a high professional and academic level.

To learn more about our academic specialisations, brief programme and concentration descriptions are presented on the following pages. If you find one or more of these especially interesting, you can find more detailed descriptions by going to the web address listed under each programme.

- Research and communication strategies

#### MSc in BLC - Leadership and Management Studies

[www.cbs.dk/grad/lms](http://www.cbs.dk/grad/lms)

- Global perspectives in leadership and communication
- Management of cultures as strategic resources

## Master's Admissions

Admission to the Copenhagen Business School is selective, and we review each application for its individual merits and qualities. Your academic preparation and performance, combined with the strength and quality of your undergraduate education, will be the basis on which your application will be assessed. All our graduate programmes require a minimum of a bachelor's degree, plus any additional requirements specified by each individual academic programme and concentration. Academic admission decisions for students in need of a student residence permit will be made on a rolling basis.

Additionally, in order to ensure a high level of teaching at CBS, all Danish and international applicants are required to document fluency in English according to CBS requirements. The up-to-date requirements can be found here:

[www.cbs.dk/graduateenglish](http://www.cbs.dk/graduateenglish). Each specific programme and concentration may have additional language requirements.

Students may contact the CBS Admissions Office by the specified deadline for a free appraisal (pre-assessment) of your academic background, in order to determine whether you fulfil the entry requirements for your programme of interest.

### Scholarship

CBS offers a number of scholarships to highly qualified international graduate students. We welcome applicants from outside the EU/EEA (in need of student residence permit) regardless of gender, age, nationality and religion – we are specifically interested in your motivation and your academic background. All interested applicants are required to identify their interest in the scholarship when applying to CBS and must submit a motivational essay for scholarship consideration. Scholarship recipients must first be academically admissible to CBS, and funding decisions will be announced in April.

The most current information regarding admission to CBS and scholarships can be found on the Admissions Office website:

[www.cbs.dk/graduateadmission](http://www.cbs.dk/graduateadmission)

*\* Please refer to the application timeline for non-EU/EEA applicants on page 16*

#### MSc and MSocSc

(Full-time, two-year graduate programmes)

#### **Fees for non-EU/EEA:**

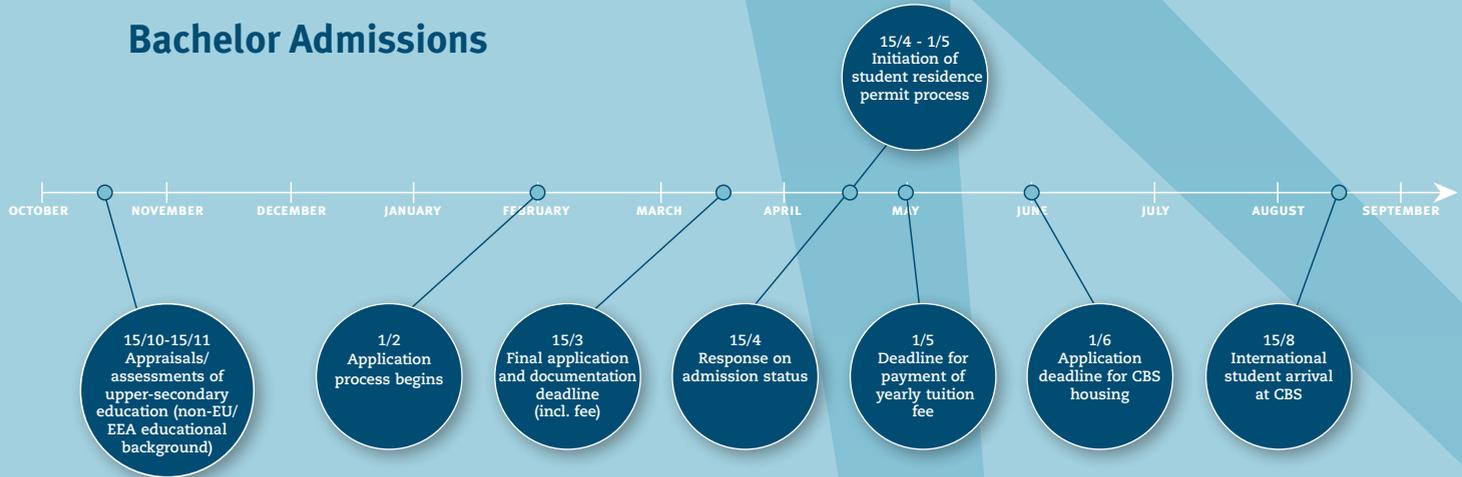

**Application Fee 150 Euro**

(refunded if admitted and attend CBS)

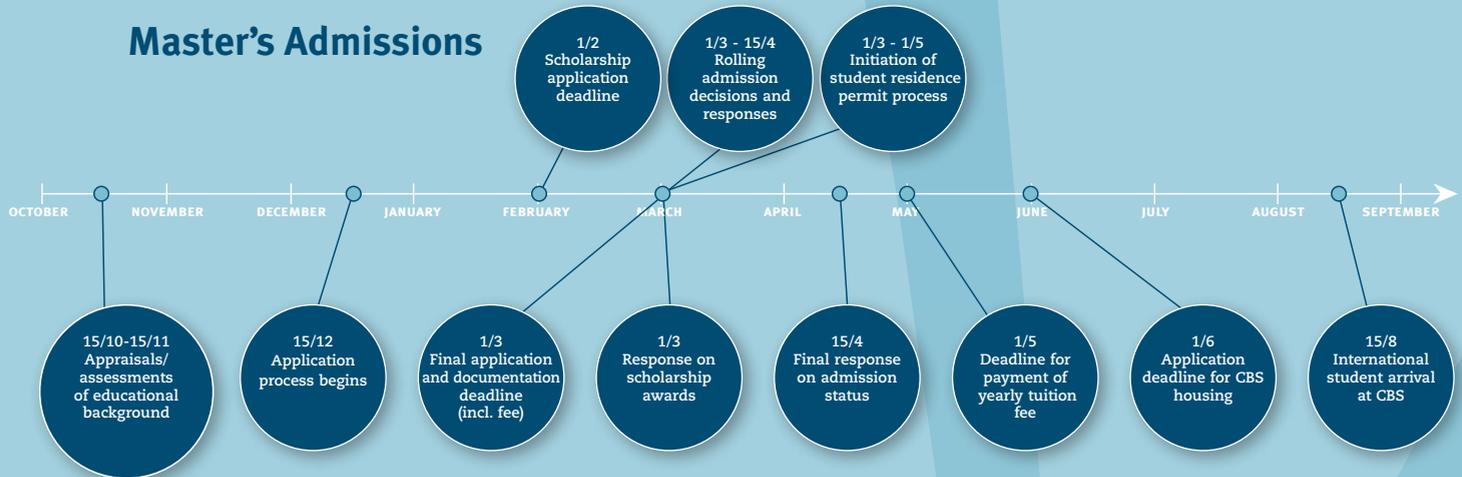

**Yearly Tuition Fee 12,500 Euro**

# Timeline for Non-EU/EEA Applicants (in need of a student residence permit)

## Bachelor Admissions

## Master's Admissions

## MBA and MSc – What is the Difference

The structure of Danish higher education is a 3-year bachelor degree which can be followed by a 2-year master's degree (not MBA). Students can then apply for a 3-year PhD programme (under 1 % of Danish graduates choose this). After working for a number of years, it is customary to further qualify your skills by doing some sort of continuing education.

If you have a bachelor degree, you have the option of pursuing different educational choices at CBS:

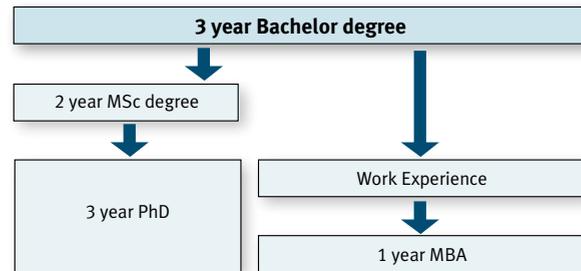

### The MSc

Master of Science is an academic 2-year degree consisting of 120 ECTS. As CBS we offer

- MSc in Economics & Business Administration
- MSc in International Business & Politics
- MSc in Business, Language and Culture
- Master of Social Sciences
- Elite MSc Programmes

To be eligible for admission to one of the MSc programmes applicants are required to have a relevant bachelor degree within business administration that fulfils the specific entry requirements of the programme. Only the academic credentials of the applicant are taken into consideration for admission. The typical student is between 21 and 25 without much practical experience. The tuition fee for Non-EU and non-EEA students is 12,500 € pr. Year (2012).

Read more: [www.cbs.dk/graduate](http://www.cbs.dk/graduate)

### MBA

MBA is a 1-year full-time general management, business programme that attracts talented professionals from around the world to Copenhagen. In 2011, CBS admitted 47 students with 24 different nationalities, who had an average work experience of 9 years. 20 % are women and the average age at admission is 33. Candidates are assessed on the basis of demonstrated excellence and achievements academically and professionally. Applicants are expected to have a university degree (minimum bachelor degree) or an equivalent professional qualification and have gained at least 2 years of work experience.

Read more: [www.cbs.dk/mba](http://www.cbs.dk/mba)

## PhD Programmes

The PhD programme is the starting point for a research career. It enables you to become a researcher and a lecturer at an institution of higher education or a specialist/consultant in the private sector. At CBS, the PhD programmes cover all of the classic fields within business economics and business languages in relation to the management and operation of public and private companies, such as finance, marketing, accounting, strategy and organisation. The programmes also include research areas necessary for the understanding of the challenges that companies face in a global knowledge society. These include innovation, business law, informatics, international economics, intercultural communication, political science and business history.

### Programme Components

A PhD programme at CBS typically spans three years and includes the following components:

- Courses for PhD students (approximately 30 ECTS credits)
- Independent research under supervision
- A research stay at another university or business school
- Teaching or another form of knowledge dissemination
- The completion of a PhD dissertation

### CBS Doctoral Schools

CBS has organised its PhD programmes in three doctoral schools with each their own academic profile:

- PhD School in Language, Law, Informatics, Operations Management, Accounting and Culture
- PhD School in Organisation and Management Studies
- PhD School in Economics and Management

### Admission and Types of Enrolment

Enrolment in the PhD programme at CBS takes place through the doctoral schools under the same procedure, which varies according to three different types of enrolment:

- Research fellow – you are employed in a position at CBS, but you are also a student at CBS
- Independent PhD student – you are affiliated with CBS as a student only and must pay a tuition fee
- Industrial PhD fellow – you are enrolled at CBS as a PhD student, but employed in a company or organisation

Entry to a PhD programme requires a master's degree.

## Summer University

### ISUP 2012

International Students: 23 June - 3 August 2012

Courses: 25 June - 3 August 2012

### APPLICATION DATES

**15 February (10 am) - 1 March (12 pm), 2012**

**Apply and read more by scanning this code:**

The CBS International Summer University Program (ISUP) is open to:

- International students
- CBS students
- Students from other Danish institutions of higher education
- Professionals seeking to further develop their knowledge and skills

Our six-week summer programme offers students the opportunity of completing the equivalent of half a semester's course load (15 ECTS credits) in a multicultural environment. A full load consists of two courses taught by outstanding academics. The International Summer University Program includes both undergraduate and graduate level courses.

### Summer in the City?

Definitely worth considering when the city is Copenhagen, where the streets are filled with sidewalk cafés and the midnight sky is never darker than a deep blue. Close to the city and waiting for you to discover are quaint medieval towns, white beaches and lovely forests. You can walk the winding streets of the old city center or see it from a canal boat.

To complement learning from ISUP courses, our programme offers an action-packed cultural and social program where you will get an insight in both medieval Copenhagen and modern Danish Design and Architecture. Travel is easy from Copenhagen and you can take part in a weekend-trip to the buzzing city of Berlin.

Study at CBS during  
the summer  
- read more about ISUP at  
**[www.cbs.dk/summer](http://www.cbs.dk/summer)**

Read much more  
about studying in Denmark at  
**[www.studyindenmark.dk](http://www.studyindenmark.dk)**

## CBS Student Life, Services and Facilities

### **Student Life and Study Environment**

At CBS, you have the chance to take part in a wide range of cultural activities and social events. To begin with, each academic programme arranges an intro week in August, where new students are welcomed into their programmes through a fun schedule of networking and socialising. CBS is also very much an active part of the wider business world, regularly hosting a variety of guest lectures, seminars and other academic events with the participation of distinguished business professionals, public figures and global companies often contributing as guest speakers.

As a CBS student, you will have access to all of the events taking place here. You also have the possibility to join one of the many independent student organisations and clubs that arrange academic and social activities. Help is never far away, as the school also offers a wide range of counseling and student guidance services, including academic and career guidance.

### **Library and Learning Resource Centre**

The CBS Library is the country's principal resource for business economics and related areas, providing a comfortable and impressive environment in which to study. You will be able to take advantage of the numerous student facilities, including multimedia labs, group study rooms and personal computers. The Learning Resource Centre is a part of the library and has over 200

PC's, as well as many free software packages that enable information from around the world to be accessed. The library is open on weekends and until late on weekdays, allowing you the opportunity to pursue your studies for as long as you like.

### **Accommodation and Transport**

Since Copenhagen is a major city, finding student housing may be a challenge. CBS Housing has limited accommodation available on and around campus, and as a result of high demand our rooms are allocated to international students on a first come first served basis. The metro system covers the whole of campus via three separate stops. However, most students choose to rent or buy a bicycle when they arrive in Copenhagen. The city has a highly developed network of bicycle lanes, making it a very safe, convenient and cost effective way to get around.

### **Getting Settled**

If you choose to come to CBS, you will find a wide variety of resources and assistance available to you. Staff in the Admissions Office, International Marketing and Recruitment, Student Guidance Services and your academic programme can assist you depending on the type of assistance you need. Throughout the academic year, various activities and workshops have been planned to give you an insight into Danish culture, settling in Denmark, the educational system and CBS exam procedures. These events will also give you

a great chance to meet other students and help you to expand your network of friends at the school.

### Working in Denmark

As an international student at CBS, you are legally allowed to work up to 15 hours a week in a part-time job. This gives you a chance to find a student job and earn some extra money alongside your studies. CBS maintains a job forum on its intranet, in order to connect you with part-time student employment. As an actively enrolled CBS student, you will also have the opportunity

to get career counselling for your future career by trained CBS staff. You can discuss your career opportunities, application and CV with a professional counselor and get individual feedback.

Counselors can also offer information and coaching on how to conduct your job search through different channels. CBS has close ties to its Career Partners, giving these industrial heavyweights access to the talent pool at CBS, as they seek out their employees of the future. This means that at CBS, you are never far away from a real life company and a real life recruitment situation.

## Facts on Copenhagen

CBS is a university located in modern and architecturally acclaimed complexes in the heart of Copenhagen – the Danish capital with more than 1.7 million inhabitants, four universities and several other research institutions. As Denmark's administrative, financial and cultural centre, Copenhagen is currently its largest growth area.

Copenhagen is just 25 minutes from Sweden in what is collectively known as the Øresund Region. This has rapidly become one of the most dynamic business regions in Europe. The region is liberally sprinkled with world-class innovative environments and has a well-developed relationship between industry and higher education.

### Modern Meets Tradition

Copenhagen was founded more than 800 years ago and combines the age-old charm of its medieval origins with the vibrant life of a modern European metropolis. With a network of car-free pedestrian streets and cobbled squares, Copenhagen has a liveable and atmospheric downtown area with cafés, cinemas and museums, as well as Europe's longest pedestrian shopping street.

Numerous independent studies have shown that Copenhagen is one of the safest cities in the world. This means that you do not have to worry about staying out at night or visiting the many different areas in and outside the city centre.

Since most Danes speak English, you will find it easy to communicate and navigate this wonderful city.

# Did you know that

Students are eligible to apply for a 3-year Danish work permit (green card) after graduation if they meet the requirements.

[www.nyidanmark.dk/en-us](http://www.nyidanmark.dk/en-us)

Search  
"Green card scheme"

English is a very strong second language in Denmark, which will give you an excellent opportunity to enhance your English skills in a comfortable environment.

CBS is the Danish CEMS member - a collaboration of the best business schools in the world. The CEMS MIM programme was ranked #2 in FT 2011 Master programme ranking.

See  
[www.cbs.dk/cems](http://www.cbs.dk/cems)

CBS offers several Double degree programmes with well-ranked business schools all over the world.

[www.cbs.dk/doubledegree](http://www.cbs.dk/doubledegree)

At CBS you can experience the diversity by choosing from more than 100 electives taught in English.
